

Cooper Fellow

LECTURE SERIES

THURSDAY, APRIL 9, 2026

3:30 P.M. via Zoom

<https://miami.zoom.us/j/97625211705>

YOUNGMEE KIM

Professor of Psychology

*“Surviving Together: The
Interpersonal Side of Cancer”*

Adjustment to medical illness involves complex psychosocial and biological processes that extend beyond patients to their family members across diverse illness trajectories. This presentation synthesizes current evidence on quality-of-life outcomes among family caregivers and highlights key mechanisms shaping psychological and physical health in adult patient-caregiver dyads. Dyadic sleep interventions are introduced as an example of biopsychosocial pathways to enhance well-being for both members of the dyad.
